

### Release Notes OakTree Supervision Software Build 2.0

**Enhancements and Bug Fixes - Summary** 

## Navigation Icons have moved to the upper right corner

To improve screen layout and real estate, the top row of icons has been reduced in size and moved to the right. User login confirmation can be found by hovering over the Profile icon.

The color scheme and side navigation bar have been modified for users to easily identify functions when hovering over the selections and unnecessary icons have been removed for more efficient use of space.

# Updated the "Home" page

Once the user logs into the system, they are taken to a "Home" page. This home page provides quick access to information and activities.

- 1) Unread Comments: This allows users to see any unread comments they are associated with in Credentials or Tasks. Users will only be able to see comments from staff that they have access to (as a Supervisor or Super Admin)
- 2) Apply Hours: view the dashboard. This allows the user to view a summary of their credentials and conveniently apply hours to any of the categories.
- 3) To-Do List Summary: View all of your tasks in a summary
- **4) Mini Dash Cards:** The mini dash cards at the top of the screen are now active links that take the user to the corresponding function.

### 1) Unread Comments

A new section called "Unread Comments" was added to allow users to immediately see any unread comments that they are associated to.

- 1. Read the note by clicking this icon
- 2. Edit your notes by clicking this icon
- 3. Check one or more boxes then click the Set Selected as Read button to mark and remove them from the list
- 4. Show 5 or more unread comments at a time
- 5. If there are more pages select them here

#### 2) Apply Hours

Users can apply hours to their credentials from the home page, making it easier to access your credential types and categories.

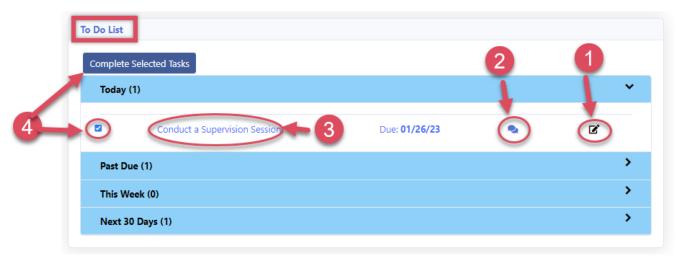

- 1. Click the hourglass icon to apply your hours
- 2. Show 5 or more unread comments at a time
- 3. If there are more pages select them here

CorePIT		Education	Continuing Education		X
CorePIT	5	Peer Supervision	Advocacy/Ethical Responsibility /	/Mentoring	X
CorePIT	10	Peer Supervision	Assigned Peer Supervisor		X
CorePIT	All	Work Experience	Advocacy		X

#### 3) To-Do List

Users can access their To-Do list and mark them as complete. This provides users a quick way to view all of the tasks associated to them.

- 1. Click the pencil/paper icon to edit or assign users to your task
- 2. Click the message icon to send a message to other users
- 3. The task description is shown here
- 4. Check the box then click the Complete Selected Tasks button to mark and remove them from the list

#### 4) Mini Dashboard Cards

Now, not only can users see the information displayed on the mini dashboard cards, but each card is an active link. Users can click on the card and it will take them to the appropriate function.

- 1. Percentage of tasks completed today
- 2. Number of tasks due today, past due, and pending approvals
- 3. Number of unread comments
- 4. Number of pending approvals

### Attaching multiple documents to their transcript records.

Previously, users could only add one supporting document/attachment when applying for hours. Now when the user uploads a document, they can upload multiple documents.

# **Renewing a User's Credentials**

The Renew Credentialing feature provides the OakTree Super Admin the option to renew a user's credentials. In the "Active" tab, you will see any current and/or open credentials. Completed credentials can be renewed, which will move them to an "Archived" tab along with any corresponding transcripts. Then a "renewed" credential is assigned in the Active tab, with zero (0) Hours Completed and a new Start Date and Expire Date.
