How to Modify MDA and Decision Support to Reflect ASAM Criteria Fourth Edition

As the Super Admin, you can modify the MDA (Multi-Dimensional Assessment) headings to reflect the current ASAM Criteria Fourth edition. Opening the System Options, you will be able to update the headings seen in the MDA. Before starting you will need to have a copy of the ASAM Criteria Fourth Edition manual for guidance on what statements you want to create.

Purpose of this handout

- A. Provide direction on where to change the MDA Headings to reflect the ASAM Criteria Fourth Edition manual.
- B. Provide directions on where to find and set up Decision Support to add your Admission Criteria and Risk Level to be reflected in the ASAM Criteria Fourth Edition manual.

Step #2 – Decision Support Setup/Criteria Setup

1. Go to Setup and select Decision Support (the last item on the list) – You must be Super Admin to access

- 2. Go to the {Criteria Setup} Tab
- 3. Select the population type that is in use
- 4. Under Select Dimension select <u>Readiness to Change</u> from drop-down
- 5. Change criteria and rating scales that are needed for personal-centered considerations. You will need to refer to your copy of ASAM Criteria Dimensions found in the Fourth Edition to add each of the Admission Criteria and Risk Levels statements.
